Trees and Plants

FOR

Beauty and Utility

NOBLE NURSERY

NOBLE, OKLAHOMA

C. E. GAREE

MRS. GAREE

From an insignificant beginning in 1899, we have developed a nursery establishment growing and offering one of the most complete assortments of Fruit and Ornamental stock in the state.

We describe and recommend everything according to its merits exactly as we see them, and strive constantly to handle each transaction in a manner satisfactory to the customer, and to give fair value for every dollar spent with us. On this basis we solicit your consideration and patronage.

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

THE following prices represent real tree and plant value direct from the grower; no agent's commission or middleman's profit to pay if you deal with us. This little folder is our only traveling salesman. His salary and expenses for the year amount to but a few cents. The saving to us and to you is easily seen by comparing our prices with those asked by the tree peddlers who visit you from time to time.

The maintenance of our present scale of prices depends upon the production of stock in moderate quantities, and upon selling off close each season with as little waste as possible. We hope to have sold most everything before the spring planting season ends, hence we urge our friends to place orders early while the stock is unbroken.

More than twenty-five years experience at Noble in south central Oklahoma demonstrate fully that in the production of high class nursery stock, our soil and climate are unsurpassed. You cannot buy better trees than ours, no matter what you pay. Practically everything we offer is grown here and may be seen in our own prairie, upland fields. A few items are grown for us elsewhere or bought from other nurserymen as needed.

We guarantee every plant we sell true to name or description and to reach you in growing condition, but assume no liability beyond the price paid, nor for loss from causes over which we have no control.

Half dozen at dozen rates, twenty-five or more at hundred rates, and may be assorted 5 of a kind. Three hundred and up at thousand rates. Berries and grapes are tied twenty-five in a bunch and should be taken in unbroken bunches to go to hundred rates. Long lists calling for 1 or 2 of a kind will be charged at each rate, except that roses and shrubs may be one of a kind, at dozen rates.

Prices do not include postage. If you wish shipment by parcel post allow a little for that. Plants, vines and small trees go by post cheaply in moderate quantities. Not to exceed a dozen 4 to 5 ft. trees may be cut back to make a package within the postal limits.

Our nursery has passed official inspection every summer since 1905. Under the law no nursery can do business in Oklahoma without inspection and every shipment must carry a copy of the current year's health certificate. Watch for it.

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

PEACH TREES—Budded 1-year tops on 2-yr. roots; 2 to 3 ft. 15c, per 100 \$12.50; 3 to 4 ft. 20c, per 100 \$15.00; 4 to 6 ft. 25c, per 100 \$22.50.

June Varieties—Mayflower, Wheeler Cling, Alexander, Carman.

July Varieties—Triumph, Mamie Ross, Early Crawford, Heily, Japan Dwarf, Earlyberta.

August Varieties—Champion, Belle of Georgia, Lee Cling, Oldmixon Cling, Amrein Cling, Elberta, J. H. Hale, Graham.

Later Varieties—Crosby, Salway, Heath Cling, Everett Cling.

APPLES—The culture of apples has fallen into disrepute here through an unfortunate chain of circumstances. When the country was new, diseases and insect pests had not made their appearance, our virgin soil was full of humus, and apples produced abundantly. Nobody sprayed the trees, the soil was cultivated little or not at all, yet at the St. Louis World's Fair, Oklahoma was able to take rank among the very best apple growing states. As a result, folks went on an apple planting stampede. The trees were planted by the hundreds of thousands, and most of them perhaps, on lands entirely unsuitable for the purpose. After a dozen or twenty years of neglect and failure most of these plantings have disappeared. "Taint no fruit country nohow."

Apple trees planted on fertile soil in most parts of Oklahoma and given reasonable cultivation, pruning and spraying are a source of satisfaction and profit to their owners, and while few people will care to engage in commercial orcharding, there are thousands of families on farms and suburban tracts that could have an abundant supply of home grown apples if they would.

APPLE TREES—Grafted, and budded, 2-year olds, priced same as peach.

Summer Varieties—Early Harvest, Yellow Transparent, Maiden Blush, Liveland, Red Astrachan, Boomer, Golden Sweet, Wealthy, Wilson June.

Fall Varieties—Jonathan, Delicious, King David.

Later Varieties—Black Ben Davis, Wine-sap, Mammoth Black Twig, Stayman, Missouri Pippin.

Crabs, same price. Whitney, Hyslop, Florence.

PLUM TREES—Budded and grafted, 1-year tops on 2-year roots, 2 to 3 ft. 25c, per 100 \$20.00; 3 to 4 ft. 30c, per 100 \$25.00; 4 to 5 ft. 50c, per 100 \$40.00; 5 ft. up, heavy, 75c.

Early Gold, Opatá, Sapa, Omaha, Com-pass, Gold, America.

Opatá and Sapa are marvels for quality and production. They bear at one year from planting, and give profitable crops at two and three years. They grow rather dwarf and may be planted 10 to 12 feet apart or used for "filler planting" among other trees. Some planters prefer to grow them in bush form, branching from the ground up. We offer a few 2-year trees in this style in the two heavier grades only.

APRICOT—Ever since the fall of 1900, we have been propagating the finest Apricot we ever saw, and have recently named it "Noble." Plant Apricots on high land to escape late frosts. Priced same as plums.

CHERRY TREES—Best 2-yr. stock 75c, per 100 \$60.00; medium size 50c, per 100 \$40.00; smaller size, 2 to 3 ft. 35c, per 100 \$25.00.

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

Early Richmond, Montmorency, Large Montmorency, English Morello, Moulton Sweet.

The cherry is one of our best fruits in point of regular annual bearing. The trees are often attacked by bark borers. These can be controlled by clean cultivation and by washing the bodies and larger branches every 3 or 4 weeks in spring and summer, with lye water, strength 1 can concentrated lye to 6 gallons. This treatment will be found beneficial to all kinds of trees.

PEAR TREES—Best 2-year grafted or budded 60c, medium size 40c. Ask for prices in hundred lots.

Manning, Bartlett, Mission, Seckel, Garber, Kiefer.

GRAPES—No fruit gives quicker or surer results. The old idea of taking 3 years to establish a vineyard is a back number. If you make your trellis when you set the plants, cultivate well and get your vines running and climbing by the middle of the first summer, you can gather half to a full crop of grapes the second.

Grape vines correctly pruned every winter keep renewing themselves and remain in good vigor and bearing after 20 to 40 years. Spraying with standard Bordeaux 4-4-50 when fruit is half grown destroys brown rot and does the vines a lot of good.

Two-year vines, 10c each, \$1.00 per dozen, \$5.00 per 100. Campbell's Early, Brighton, Lucile, Delaware and Carman not sold at hundred rates. Extra heavy vines of most varieties 15c each, \$1.50 per dozen.

Black or Purple—Champion, Campbell's Early, Carman, Clinton, Ives, Concord, Worden.

Red and Brown—Brighton, Salem, Lucile, Delaware, Agawam, Catawba.

White or Light—Diamond, Niagara.

BLACKBERRIES AND DEWBERRIES, 50c per doz., \$3.00 per 100. Early Harvest \$25.00 per 1000. Dallas, McDonald and Austin \$20.00 per 1000.

RASPBERRIES—50c per doz., \$3.50 per 100.

THORNLESS DEWBERRY—\$1.00 per doz., \$5.00 per 100.

EVERBEARING STRAWBERRIES, \$1.50 per 100.

COMMON STRAWBERRIES, \$1 per 100.

Strawberries are not shipped with other stock, but go out postpaid in time for spring planting. If wanted in thousand lots and up, write for prices.

FIGS—Bear good fruit nearly every year. 1 to 2 ft., 25c; per dozen \$2.50. 2 to 3 ft., 50c; per dozen \$5.00.

RHUBARB, WINEPLANT OR PIE-PLANT—The best variety we ever saw; big, early, pink, tender stalks. Does not make much seed and is propagated by dividing old crowns. Strong Divisions, per dozen, \$1.50; per 100, \$8.00. Second size divisions, \$6.00 per 100.

Linnaeus Seedlings, half price. We do not recommend the seedlings.

ASPARAGUS—Two-year roots. Dozen, 35c; 100, \$2.00. Old clumps, \$1.00 per doz, \$6.00 per 100.

HORSE RADISH CUTTINGS—Per dozen, 35c; per 100, \$2.00.

PAPER SHELL PECANS—Pecan culture is attracting considerable attention in Oklahoma. The quickest results are obtained by top budding native trees where they stand in fields and partly cleared land. We have had considerable experience along this line and can convert any vigorous

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

Paper shell pecan on prairie upland. Top budded 1921. Bore 1923, 2 pounds; 1924, 2 pounds. Present crop estimated 8 pounds.

young native pecan into a Fancy Paper Shell in about two years. Ask us about this work.

Pecans transplant as well as other trees if handled right. The trees must be kept absolutely protected from drying while out of the ground, then after being planted as deep as they stood in the nursery they require careful garden like cultivation for two summers. We meet the first require-

ment, but the other two are up to you.

Good 1-year tops, on 3-year roots, \$1.25 each, \$14.00 per doz.

SHADE TREES—For several years we have specialized in the Non-bearing, English, Paper White, Barren, French, Male or Shade Mulberry. Under cultivation it is one of the fastest growers we ever saw, and will give good results on hard-pan and poor soils where many other varieties will not grow at all, and is entirely free from insect pests and plant diseases.

10 to 12 feet, 2 to 2½ in. stems	—\$2.00 each
10 to 12 feet, 1½ to 2 in. stems	—\$1.50 each
8 to 10 feet, 1¼ to 1½ in. stems	—\$1.00 each
6 to 8 feet, 1 to 1¼ in. stems	—75c each
6 to 8 feet, ¾ to 1 in. stems	—50c each
4 to 6 feet	—25c each

Smaller sizes, \$1.00 to \$2.00 dozen.

Some very fine trees of Maple, Elm, Poplar, Hackberry and Sycamore at corresponding prices.

Catalpa Bungeii—Top grafted, on common catalpa, \$1.00 to \$2.50 each. State height of tems desired.

CHINESE ELM—Introduced a few years ago by the U. S. Department of Agriculture, it is one of the most beautiful of shade trees; like a fine American Elm, yet different, and grows as fast as a cottonwood. We are among the first to offer this wonderful new variety.

Field grown yearlings, 6 to 8 ft. \$1.50, 8 to 10 ft. \$2.00. Supply limited.

1-year Seedlings, 3 to 4 ft. 50c, per doz. \$5.00. 2 to 3 ft. \$25.00 per 100.

ROSES—There are so many hundred good varieties of this Queen of Flowers that no one list can be complete. We offer about 30 varieties and in each of them we have a fair supply. We have, perhaps, as many more sorts under test and in course

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

of propagation, but not in sufficient numbers to justify listing. They can be used in making up assortments for customers desiring them.

Field grown plants of good quality. Some extra heavy plants, others not so heavy, because some of our best bloomers are slower growers, but every one has bloomed freely all season, and will please you. Each 60c, per doz. \$6.00.

Reds—Etoile de France, Red Radiance, American Beauty, Crimson Queen, F. S. Keys, Climbing Am. Beauty, C. K. Douglas, G. A. Teplitz.

Whites—Kaiserin A. V., Snowflake, Catherine Mermet, White Am. Beauty.

Pinks—Radiance, Maman Cochet, Dorothy, Perkins, La France, Mdme. Testout, Columbia, Climbing Columbia, J. L. Mock.

Yellows—Luxemburg, Lady Hillington, Etoile de Lyon.

Tinted—White Cochet, White Killarney, Los Angeles, Ophelia, Butterfly, Dudley Cross, Clothilde Soupert.

EVERGREENS—Our Evergreens will live and grow for you because we dig and handle them right. All the large sizes have been transplanted two or more times to develop the root system, and are field grown without irrigation. Our stock at present consists of nearly 40 varieties, and we are always on the look-out for others that will thrive in this climate. We have discarded several fine ones that are too hard to keep alive here in August. We do not attempt a complete descriptive price list of all sorts we grow. The price often depends as much on the quality and individuality of the specimen as upon the size. It is desirable that you visit the nursery, select your evergreens and have them dug with balls of earth and delivered into your own convey-

Silver Juniper; one of our finest and hardiest varieties.

ance. Where this is not possible they are crated for shipment at a slight additional expense.

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

Red Cedars—Single plants 25c each and up; 50c per foot of height. Fancy sheared specimens, 75c to \$1.00 per foot.

Pine, Juniper, Arbor Vitae, Euonymus, several varieties of each, 50c to \$1.00 per foot. No plant sold for less than \$1.00.

Silver Juniper and Berkman's Dwarf Golden Arbor Vitae, \$1.00 to \$2.00 per foot. No. plant less than \$2.00.

Consult us about your needs in this line. We will give you A-1 service based on years of experience.

PRIVET FOR HEDGING—All the privets make excellent flowering shrubs. We offer several varieties for that purpose but for hedges we sell and recommend Amoor River South and California. Both are hardy enough, Amoor being practically evergreen in this climate while California loses its foliage only after our most severe freezes. Heavy, well branched, 2-year plants 2 to 3 ft., \$1.00 per dozen; \$7.50 per 100; medium size, about 2 ft. branched, \$5.00 per 100;

A peep at future evergreen specimens. A row of 4-year old Shade Mulberry in the background.

light weights, \$3.50 per 100; extra heavy 3-year plants \$2.00 per dozen, \$15.00 per 100.

HARDY SHRUBS—Good Stock, mostly two or three years field grown, and ready to bloom the first season if planted early. Many of our varieties as they stand in the nursery are more than a yard high and a yard wide. Dwarf growers are smaller. In most instances we are able to supply you well branched or many stemmed specimens that will fill up your shrub beds and give immediate effect.

Each 50c, per doz. \$5.00. Second size plants of many sorts, half price.
